- Discover a uniquely powerful antioxidant
- Learn how to optimize your stem cell levels
- What others are saying about cellular health

Change your Health at the Cellular Level!

If you have struggled to find answers for health issues or if you want to take a powerful stand against the signs of aging, supporting your health at the cellular level may offer the breakthrough you've been looking for.*

Health begins at a cellular level, and RBC Life has always been on the cutting-edge of delivering research-backed products that support the body's vital cellular functions. Our cells require the best nutritional support to perform optimally. For the past two decades, RBC Life has pioneered the field of cellular health, creating the most powerful antioxidant available and more recently, offering a unique, all-natural supplement that helps your body produce more stem cells.*

Stem cells are the body's primary repair and rejuvenation system. When any part of your body is damaged, stem cells rush to the site of injury. They infiltrate the damaged tissue and transform into the cell type of that particular tissue, which generates new healthy tissue cells.

When you are young, you produce a large amount of stem cells, but after age 25 the amount you produce continuously drops. Studies have shown that the more stem cells you have, the more effective your ability to renew, repair, and slow down the signs and symptoms of aging.

We also need to protect our cells from damage, which is where a powerful antioxidant becomes critical for maintaining optimum health. Antioxidants are vital to the health of our cells because they protect our DNA from free radical damage. Those who take our unique antioxidant products typically notice more energy, greater protection from environmental influences, and overall improvements in their health that seemed otherwise impossible.*

"...RBC Life has pioneered the field of cellular health*..."

Stem-Kine™

Replenish • Repair • Rejuvenate

Stem-Kine is a unique supplement made with all natural ingredients and vitamin D through a proprietary fermentation process. This product nourishes the bone marrow to enable your body to produce an increased level of circulating stem cells.

Stem Cells are a vital part of the body's effort to achieve optimal health. Studies indicate that the higher number of stem cells you have circulating in your body, the greater health you can achieve. Encouraging a higher level of stem cells is the most

natural way to repair and replenish the body, giving it the tools it needs to support optimal health.

Our stem cell production declines with age, but two published studies show that 2 capsules of **Stem-Kine** twice per day can increase stem cell production up to 100% over a period of two weeks! Don't leave your body's stem cell production vulnerable. **Stem-Kine** is research-backed and proven to support optimal stem cell levels.

“slow down
the signs and symptoms
of aging*.”

saying about Stem-Kine™

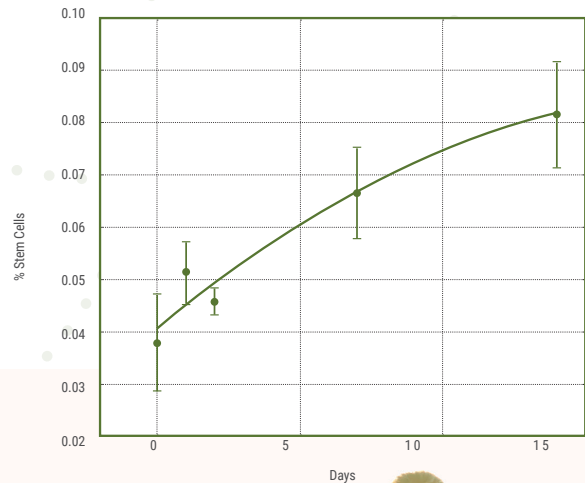

“As a result of an accident, my shoulder was ‘frozen’ for several years. I could not raise my arm high enough to hold my hair dryer. After I began taking **Stem-Kine** I could move my arm up over my head with no discomfort.” – A.J.*

“How can I not rave about **Stem-Kine**...I had experienced a tremor for several years in my left hand. I'm left handed, so that wasn't good. Trying to use tweezers was impossible. **Stem-Kine** was added to my good RBC Life regime and I noticed thyroid and adrenal help right away (blood tests showed improvement too) but before the 5 month mark I noticed the tremor was GONE. It has been years and the TREMOR has NOT returned...

Stem-Kine is a MUST in my daily regime. – Barb*

“I had developed a reaction to moldy type foods (peanuts, blue cheese, feta, mushrooms to name a few) the reaction showed up on my face...redness on corners of the mouth, puffy lips & redness around the eyes. Very unattractive!! I would have flair ups sometimes without eating any of the above mentioned foods. It became unpredictable. When I began **Stem-Kine** at 4 per day, I had no idea that it would correct, heal, balance whatever was out of whack in my system but it did!! Never happened again!” – Linda*

Clinical Studies Prove the Effectiveness of Stem-Kine

Microhydrin®

Energy • Endurance • Recovery

While **Stem-Kine™** helps us create more healthy cells, our potent antioxidant, **Microhydrin**, protects them.

Microhydrin from RBC Life is a powerful research-backed antioxidant. Protecting our cells is of critical importance in this modern age of constant cellular assault. Radiation, pollution, and toxins in our food and water can damage our cells and contribute to unexpected health challenges. Arming yourself with a powerful antioxidant has become critical.*

The trillions of electrons available in **Microhydrin** help protect your cells from free radical damage and help create healthy, oxygenated, energized cells. This uniquely powerful antioxidant supplies your body

Read what our Members are saying about Microhydrin®

"I have the energy of someone much younger than I am!! Recovery from exercise and activity is phenomenal, not to mention what is happening in my body to keep it in a healthy alkaline state!" – Corinne*

"My 4 year old son had just gotten home from getting a vaccination and was lying on the couch looking under the weather. I thought perhaps a **Microhydrin** would make him feel better. Well not only did it make him feel better, within 15 minutes he was back to being his energetic young self." – Bill*

"When I started using **Microhydrin** my back gave me constant discomfort plus my energy level was nonexistent. After about one week I noticed my energy level had increased. I felt young again. The other thing I noticed was I was moving so much easier. It is now 4 years and I feel fantastic. With **Microhydrin** and **Stem-Kine** my back feels much better!" – Peter*

"I love using **Microhydrin** before and after a workout. Before, it gives me more energy for a strong workout. After, it minimizes soreness and speeds recovery. Fabulous product! One of my favorites and a favorite in the house with the kids too. Even our 12 year old, after a day of basketball and skating, will ask for **Microhydrin** to minimize muscle soreness and speed healing. She feels the difference. So do I!" – Lois*

"After I began taking **Microhydrin** my energy was better, my well-being was better and I had more endurance. Although I am 66 years of age today, I feel like I am in my early fifties!" – Dr. Packovich*

the necessary building blocks to create cellular energy. It also helps to offset the acidic nature of our diets by balancing the body's pH. Within the proper pH range, the body can exercise its amazing capacity to restore itself. It is a top selling product because people love the way they feel with **Microhydrin!** Our ongoing research and over a decade of faithful consumers have proven its immense value. *

Support Your Health on a Cellular Level

We have heard thousands of stories of lives changed through these incredibly powerful, research-backed products.

Support optimum production of your body's stem cells while also protecting your cells from harmful free radicals. The **Healthy Cell Starter Pack** offers two powerful, life-changing products.*

For existing RBC Life Members, simply place the **Healthy Cell Refill Pack** on your Autoship to have these products delivered to your door at 10% off wholesale every month!

The Healthy Cell Starter Pack Contains:

- (1) Microhydrin, 120
- (2) Stem-Kine
- (1) Member Kit

Autoship pack contains
Microhydrin 60
